

Orbit Benches

Orbit is a new line of modular benches, that can be combined in a variety of compositions, that will significantly make attractive appearance in any space. Interesting design and the concept of a benches make furniture series Orbit serve numerous purposes. They fit perfectly both in modern urban spaces and interiors of offices, or even shopping malls. Because of their design, they may be parallel to the walls in the corners of rooms, as well as combined in compositions such as circles or semicircles. High quality steel and wood used in their production ensure Orbit benches strength and beautiful appearance.
